## FEDERAL BUREAU OF INVESTIGATION

Date of transcription 06/04/2001

[redacted] telephone number [redacted] telephonically contacted the Wausau Resident Agency of the Federal Bureau of Investigation (FBI) and provided the following information:

b6  
b7C

Approximately a little over five years ago, DEIRDA WEEKS was killed while riding her bike in an hit and run accident on Highway HH in Wood County. She recently talked to a man, whose name she could not remember, who told her that he had worked [redacted] the night the girl was killed. He told her he was called in late at night to fix a car that had been involved in an accident that was later taken and sold in Indiana.

b6  
b7C

He told her the vehicle was owned by [redacted] at the time. Apparently [redacted] had been drinking in Vespers prior to the accident. [redacted] who were at the shop when he went to work on the damaged car, appeared to be intoxicated.

b6  
b7C

The man told her he did not go to the police at the time or say anything [redacted]

Dear [REDACTED]

This letter is in response to your telephonic request to this office inquiring as to the availability of FBI legal instructional outlines covering the topics of criminal procedure and other law enforcement related matters.

Enclosed you will find outlines pertaining to the topics of the Fourth Amendment, confessions and interrogation, Title VII and the Civil Rights Act of 1964, as well as two outlines on the Americans with Disabilities Act. These outlines arrived in yesterday's mail. They constitute the most recently updated versions which are presently being utilized by instructors at the FBI Academy, Quantico, Virginia. One note of caution, however, is that the outlines are based upon federal law and state laws in these areas may differ.

I'm glad we could be of assistance with regard to this matter and hope that the enclosed material will prove helpful in connection with the law enforcement courses you provide at Southwest Wisconsin Technical College.

Sincerely yours,

*[Signature]*

### to contest plea in Internet sex case

An Elkhorn man pleaded no contest Monday to charges that he tried to entice a 13-year-old girl via the Internet to meet him or sex.

Alan L. Wood, 50, pleaded no contest to one count of child enticement and two counts of sexual exploitation of a child in Jefferson County Circuit Court.

Wood was originally charged in a 66-count criminal complaint with sending dozens of sexually explicit pictures over a two-month period to "Carrie," a 13-year-old girl.

"Carrie," however, was the screen name for Lt. Timothy Krueger of the Fort Atkinson Police Department, who was keeping up the correspondence as part of a police sting.

Wood was arrested Dec. 30 at a Fort Atkinson restaurant where he had arranged to meet Carrie. Wood faces up to 40 years in prison and a \$30,000 fine.

### Accidents injure two motorists

Two people hurt in separate crashes Sunday afternoon in Sauk County were each in fair condition Monday at University Hospital.

David Williams, 51, Madison, was hurt after he lost control of his motorcycle at Highway B and Fox Road in the town of Troy about 4:50 p.m., the Sauk County Sheriff's Department said. Williams, who sustained head and leg injuries, was not wearing a helmet. Authorities said alcohol was a factor.

A 15-year-old Plain girl was hurt in an all-terrain vehicle crash about 3 p.m. on private property near highways G and JJ in the town of Spring Green. The girl's name and details of the crash and were not available.

Meurer set bail at \$50,000 Monday for the charges that stem from the April 23 crash that killed James E. Simmons Jr., 48, of Madison.

"This is what happens as a result of drunk driving," Meurer told Smith. "Sooner or later, someone gets killed."

Smith had allegedly been drinking, smoking marijuana and playing cards at a friend's house before the accident. He is accused of driving his car at speeds up to 75 miles per hour around 2:20 a.m. at Fish Hatchery Road and Petra Place, where he struck Simmons, who was on foot, according to the

in 1985 and his driver's license had been revoked in July 1998 after he was convicted of his third drunken driving offense.

Before setting bail, Meurer said he often tells people charged with drunken driving that "sooner or later, they are going to end up killing someone."

"I might have even said that to this defendant in the past," Meurer added.

Smith's preliminary hearing is set for May 10. If convicted of the charges, he could face 127 years in prison.

## \$100,000 in jewelry grabbed by burglars

JOHNSON CREEK — Thieves dressed in dark clothing and carrying duffel bags made off with nearly \$100,000 in jewelry during a Monday morning burglary of a jewelry store at the Johnson Creek Outlet Center.

Jefferson County Sheriff Orval Quamme is seeking information from anyone who might have seen the two thieves or vehicles at the outlet mall anytime after midnight. An intrusion alarm at the Ultra Jewelry Store sounded at 12:32 a.m. Monday alerting the Sheriff's Department to the break-in.

Quamme said investigators are examining surveillance video from the store in an effort to identify the two people caught on the tape during the burglary.

"Right now we have two male suspects, dressed in hooded, dark clothing wearing white tennis

shoes and carrying dark colored duffel bags," Quamme said.

Noting the proximity to Interstate 94, the sheriff said determining the path of escape could be difficult unless someone saw a speeding vehicle leaving the scene.

"They could have come from as many as four metropolitan areas and have fled in that direction," the sheriff said, noting that escape routes on the interstate could lead to Milwaukee or Madison and to the Fond du Lac or Janesville, Beloit or Rockford areas on Highway 26, which intersects with the interstate at the sprawling mall.

Quamme said his detectives also are checking with other law enforcement agencies in the state to determine if they have had any similar late-night burglaries.

## Town officials hope to thrash out merger

By Phil McDade  
Wisconsin State Journal

Two northern Dane County communities trying to merge are planning to meet today for nearly six hours to work out some of their differences.

The governing boards of the village of DeForest and the town of Windsor hope to air their concerns and maybe reach agreement on major issues such as growth rates, farmland preservation and governance, according to local officials involved in the talks.

"If there's an opportunity to move on anything, we're going to try to seize the moment," said Theresa Marty, DeForest village president.

The boards are scheduled to meet from 12:15 p.m. to 6 p.m. at

ments of each community to vote on the merger. The referendums must be authorized by each town board, state officials, and a court before residents can have their say.

A majority of residents in each community must pass the referendum for the communities to merge. The vote could be held in conjunction with state and federal elections in November.

Among the major issues expected to be aired at today's retreat:

■ **Farmland preservation.** Windsor officials have vigorously defended large farmland tracts from development. Harvey said town officials want assurances that a merged community would continue preserving prime farm-

Information furnished to:

**Remarks:** On 12/14/1999, CDC Milwaukee was telephonically contacted by [REDACTED] Medical Section, Milwaukee Police Department, [REDACTED] requested to be advised of the FBI's official policy concerning the wearing of beards by FBI Special Agents.

As a review of MAOP provided no specific references to beards, CDC Milwaukee left a telephonic message with Employment Law Unit personnel, OGC, FBIHQ on 12/15/1999. Unit Chief [REDACTED] returned this call and confirmed that there is no specific FBI policy concerning beards. Rather, there are only general statements to the effect that employees should have "appropriate business attire and appearance." Unit Chief [REDACTED] advised it is permissible to disseminate this information to the Milwaukee Police Department.

On 12/15/1999, the information provided by Unit Chief [redacted] was telephonically provided to [redacted]

(Note: Prior to disseminating this information, the Personnel Section of MPD was contacted and that section confirmed [redacted] identity.)

MW 62D-C2085

Title: DISSEMINATION OF INFORMATION;  
PRESIDENTIAL INITIATIVE ON PRIVACY AND  
PERSONAL INFORMATION IN FEDERAL RECORDS

Synopsis: To document in MW 66F-911, Milwaukee's general administrative file for recording disseminations of information, that file MW 62D-C2085 also serves as an additional repository of documentation concerning dissemination of information by the Milwaukee Division.

Reference: 66F-HQ-1201415-I Serials 24, 39

Enclosures: Attached to this communication is a copy of a memorandum of understanding (MOU) dated 06/06/1988 between the Division of Criminal Investigation, Wisconsin Department of Justice (DCI) and the FBI.

Details: Referenced serials entitled, "Presidential Initiative On Privacy and Personal Information in Federal Records," require each division to conduct a review of the its procedures concerning the retention and dissemination of information to assure compliance with the Privacy Act. Among the provisions of that act is a requirement that agencies keep an accurate accounting of disclosures of information. Although file MW 66F-911 serves as Milwaukee's primary "Dissemination of Information" control file, the review conducted of Milwaukee's procedures determined that file MW 62D-C2085 also serves as a repository for documentation which accounts for additional instances of dissemination.

Pursuant to the provisions of the attached MOU, DCI submits names to Milwaukee to be checked through FBI files. The names are searched through Milwaukee Division files, and the

b6  
b7C

To: Milwaukee From: Milwaukee  
Re: MW 66F-911, 04/02/1999

results of these searches are sent to Information Resources Division (IRD), Executive Agencies Subunit, FBIHQ. IRD then prepares a written response to DCI. This response is transmitted to Milwaukee which, in turn, forwards the response to DCI. These disseminations are recorded in MW 66F-C2085.

The review also determined that the MOU specifically and appropriately addresses Privacy Act considerations. Milwaukee makes these disseminations directly to DCI, another law enforcement agency. The MOU permits DCI to use such information "for internal and investigative purposes." These disseminations assist DCI to detect and investigate instances of criminal participation in, and influence upon, the operation of the Wisconsin state lottery. This is consistent with disseminating information to another law enforcement agency for a law enforcement purpose, an authorized "routine use" under the Privacy Act.

MEMORANDUM OF UNDERSTANDING

Re: Dissemination of Information  
to the Wisconsin Department of  
Justice, Division of Criminal  
Investigation (WDCI) by the  
Federal Bureau of Investigation  
Pursuant to the Establishment and  
Operation of the Wisconsin Lottery  
Act.

With regard to name check requests made by the Wisconsin Department of Justice, Division of Criminal Investigation (WDCI), pursuant to Wisconsin Statute 565.25 (3)(4), to the Federal Bureau of Investigation (FBI), the following guidelines are understood and agreed upon by both the WDCI and the FBI regarding dissemination of such information:

1. To conform with the requirements of the Privacy Act of 1974, all requests for name checks of the central files of the FBI will be made in writing, one name check per communication, addressed to the Special Agent in Charge of the Milwaukee Office of the FBI. Such requests will be made by the Administrator of the WDCI, will specifically set forth the nature and scope of the information being sought and will include adequate identifying data on individuals or corporations in question, as well as the law enforcement function of the WDCI to be served by receipt of the requested information.

2. Name check requests will normally be limited to individuals and/or companies actually applying for or holding

Act.

vendor licenses. If the WDCI is aware that the individuals or company applying for or holding a vendor license has been or may have been the subject of an investigation conducted by the FBI, that fact will be included in the written request.

3. Responses by the FBI to name check requests will be limited to information which is pertinent to the nature and scope of inquiry. In the event a review of our central files contains pertinent information suitable for dissemination regarding the subject of the inquiry, a summary of this information will be compiled by the FBI and a written response will be provided to the FBI at Milwaukee for transmittal to WDCI.

4. The FBI will furnish summary memoranda (which may include as an enclosure pertinent public source material) containing the results of its name check search to the Administrator of the WDCI or his designated representative and retain a record of the person to whom such information is furnished. The Administrator of the WDCI will ensure that access to these summary memoranda (which may include as an enclosure pertinent public source material) is restricted to WDCI persons directly involved in the internal and investigative deliberations of the particular name check request and, when deemed necessary,

to the Executive Director of the Wisconsin Lottery. The WDCI shall maintain records of the identities of persons receiving access to the aforementioned materials and such records shall be furnished to the FBI upon request. The WDCI shall not reproduce or disseminate any of the aforementioned materials without the written consent of the FBI unless otherwise provided for in this agreement.

5. The information provided by the FBI may be used by the WDCI for internal and investigative purposes. Neither information nor documents furnished by the FBI will be introduced in any court of law or in any hearings held within the State of Wisconsin or elsewhere, except in extraordinary circumstances wherein the FBI will make the final determination concerning usage. Information furnished will not contain recommendations or conclusions of the FBI. It will remain the property of the FBI and will be loaned to the WDCI. Documents containing responses by the FBI to name check requests, and the contents thereof, are not to be distributed outside the WDCI other than, when deemed necessary, to the Executive Director of the Wisconsin Lottery. Information provided to WDCI will be afforded proper safekeeping.

6. Employees, past and present, of the FBI will not be called as witnesses to testify relative to information disseminated to the WDCI except in extraordinary circumstances wherein the FBI will make the final determination concerning any such testimony.

7. Neither transcripts from electronic surveillance nor any other information prohibited by Federal rules or statutes will be furnished to the WDCI, except by Federal court order.

8. Information provided to WDCI will be made at the discretion of the FBI, pursuant to the Privacy Act of 1974, and at any time the FBI cannot properly respond to WDCI requests due to budgetary or other considerations, WDCI authorities will be promptly notified. No information will be furnished that would interfere with the FBI's investigative interests.

Title: DISSEMINATION OF INFORMATION;  
INFORMATION RE [REDACTED] PROVIDED TO DOJ

Synopsis: To document the nature of information concerning [REDACTED] provided telephonically to [REDACTED] Office of Professional Responsibility, US Department of Justice.

Enclosures: Attached to this communication is a copy of a letter directed to [REDACTED] transmitting a photograph of [REDACTED]. Also attached is a list of notes indicating the nature of the information telephonically provided to [REDACTED] by CDC Milwaukee on 01/07/1999.

Details: Pursuant to a request from ASAC [REDACTED] CDC Milwaukee reviewed Milwaukee Division files for information concerning [REDACTED]. ASAC [REDACTED] had been contacted by [REDACTED] who indicated that he had been receiving numerous telephone calls from [REDACTED] and wished to be advised of the nature of Milwaukee's contacts with this individual. ASAC [REDACTED] advised CDC Milwaukee that the Office of Professional Responsibility, FBIHQ, had authorized Milwaukee to make full disclosure of all requested information to [REDACTED].

The information contained in the attached list of notes was telephonically provided to [REDACTED] on 01/07/1999. During that conversation, and in light of the fact that [REDACTED] had indicated that he might travel to Washington D.C. with the intent of meeting personally with [REDACTED] and the threat to the safety of DOJ personnel which might be posed should [REDACTED] personally appear at [REDACTED] office, [REDACTED] requested that Milwaukee provide him with a photograph of [REDACTED]. Such a photograph was provided under cover of the attached letter.

[redacted] Assistant Attorney General, State of Wisconsin.

**Enclosures:** Attached to this communication is a letter and enclosures consisting of the "Eyewitness Identification" section of the Legal Handbook for Special Agents.

**Details:** On 11/14/97, CDC Milwaukee was contacted by Assistant Attorney General [redacted] advised that the Wisconsin Supreme Court had handed down a decision pertaining to a lineup identification which was very troubling for law enforcement. The decision pertained to circumstances where the physical appearance of a subject may have significantly changed between the time of the crime and the time an eyewitness identification was made as a result of a lineup. [redacted] indicated that it was the position of his office that the Court's decision went against well-established lineup procedures routinely taught to law enforcement personnel. His office has until 11/19/97 to decide whether to file an appeal for rehearing.

[redacted] requested CDC Milwaukee's assistance in determining whether any Law Enforcement Bulletin articles or similar law enforcement publications had recently addressed the issue of lineups and changed appearance. In addition, he was interested in obtaining material utilized for the training of FBI personnel in the general area of lineups.

On 11/14/97, CDC Milwaukee contacted the Legal Training Unit, Office of General Counsel at the FBI Academy. SSA [redacted] advised that since the last US Supreme Court ruling pertaining to lineups was in 1977, neither the Law Enforcement

Dear [Redacted]

The enclosed material is in response to your telephonic request to my office of November 14, 1997, for material concerning suggested procedures to be utilized by Federal Bureau of Investigation personnel when conducting lineups.

The material accompanying this letter consists of the section of the Federal Bureau of Investigation Legal Handbook for Special Agents entitled, "Eyewitness Identification." Each Special Agent of the Federal Bureau of Investigation is supplied with a copy of this handbook as a guide for handling various legal matters.

Please do not hesitate to contact my office again if we can be of further assistance.

## SECTION 6. EYEWITNESS IDENTIFICATION

### 6-1 IN GENERAL

The identification of criminal offenders by eyewitnesses is one of the most important techniques to Agents in apprehending and convicting Federal law violators. It is of little value, however, if the eyewitness' in-court testimony is suppressed because of improper pretrial identification procedures, or is subject to impeachment because of questionable practices used by the Agent when the pretrial identification was obtained. The guidelines which follow have two important purposes: to assure the admissibility and credibility of eyewitness identification testimony, and to make certain that all identifications are the product of the honest, independent recollection of the witness. These rules reflect and incorporate constitutional requirements as interpreted by the Federal courts. In addition, policy considerations have been included which are believed helpful in achieving the purposes stated above.

EFFECTIVE: 10/27/78

#### ||6-1.1 Initial Description

The initial description of the subject obtained from the witness should be as detailed as possible. Information obtained should include as many details as possible regarding the physical characteristics and clothing of the suspect. This initial description is an essential part of any subsequent lineup.

EFFECTIVE: 01/30/97

PAGE 6 - 2

EFFECTIVE: 10/27/78

6-2.1 When Conducted

A lineup should be held only when clearly necessary. Such a case is one in which identification by a witness is a critical factor, and the witness is so unfamiliar with the accused that identification is uncertain. Other significant factors which may be considered by the Agent in making a determination of whether to conduct a lineup are the following:

(1) Other Evidence - If the government possesses a significant amount of other evidence, such as an admission of a codefendant, a confession, or physical evidence, eyewitness identification may be unnecessary and consideration should be given to foregoing a lineup. This is especially true when the eyewitness' recollection is weak.

(2) Unusual Appearance of Suspect - If the suspect's appearance is uncommon or unusual, and difficulty is experienced locating suitable elimination participants, consideration should be given to not holding a lineup.

(3) Prior Knowledge - If the witness is acquainted with the suspect and recognized him/her during the offense, a lineup may be unnecessary.

(4) Inconvenience - If the suspect is in custody a great distance from the witness, a lineup may not be feasible. Consideration should be given to using photographic identification procedures.

(5) Uncooperative Suspect - It may be unwise to hold a lineup if the defendant threatens disruptive tactics. (See 6-2.10, Refusal to Participate.)

(6) Consultation with Chief Division Counsel or U.S. Attorney - If there is any uncertainty about the necessity or wisdom of conducting a lineup, the Agent should seek the advice of the Chief Division Counsel or USA. The decision to hold a lineup often can be made while reviewing the proof with the USA when seeking authorization for a warrant.

PAGE 6 - 3

EFFECTIVE: 01/30/97

6-2.2 Notice to U.S. Attorney, Defense Counsel, and Chief  
Division Counsel

Once a lineup has been scheduled, the Agent should immediately advise the USA and defense counsel of the fact, time and place. The Chief Division Counsel should be notified and, if possible, attend the lineup.

EFFECTIVE: 01/30/97

6-2.3 Defense Objections to Proposed Lineups

If defense counsel raises objections or in any other manner obstructs the proposed lineup, defense counsel should be advised to discuss the matter with the USA.

EFFECTIVE: 10/27/78

6-2.4 Right to Counsel (See 6-2.4.2 (1).)

The legal right to the presence of a lawyer at a lineup exists only if the lineup takes place after an initial appearance before a magistrate or the initiation of formal prosecution by the filing of either an information or the return of an indictment, and the lineup is connected with the offense for which the suspect made an initial appearance or was charged. However, interviews conducted in conjunction with any line-up must comply with section 7-5.1 regarding communications with represented individuals.

6-2.4.1 Lineups Prior to Arrest or Initiation of Prosecution

If a suspect voluntarily appears in a lineup before initial appearance or initiation of prosecution, or is compelled to appear pursuant to a court order or grand jury subpoena (See 6-2.11, Detention of Suspects for Lineups), he/she shall be informed that he/she may retain counsel for the lineup if he/she wishes, but that he/she has no legal right to counsel and one will not be appointed to represent him/her. The suspect shall be so informed sufficiently in advance of the lineup to enable him/her to secure the services of an attorney at his/her own expense. If the suspect fails to retain counsel, it is not necessary to obtain a waiver or execute Form FD-404, Your Rights at a Lineup. The lineup may be held without the presence of a defense attorney.

EFFECTIVE: 01/30/97

6-2.4.2 Lineups After Arrest or Initiation of Prosecution

(1) Unrelated Offenses - Even after the initiation of criminal charges, a suspect does not have the right to counsel at a lineup relating to other criminal offenses which have not been formally charged to the suspect. For example, if a suspect is arrested and charged with Theft from Interstate Shipment, and subsequently is developed as a bank robbery suspect, he would have no legal right to be represented by counsel at a lineup held for witnesses of the bank robbery. This rule applies whether the suspect is in custody or on bond.

If such a lineup is contemplated, the suspect should be informed well in advance of the lineup that he has no legal right to an attorney at the lineup and one will not be appointed to represent him. If the suspect is already represented by retained or appointed counsel, or desires to hire an attorney, he should be permitted to do so and have the attorney at the lineup to represent him. If the suspect fails or declines to retain counsel, the lineup may proceed without the presence of a lawyer for the suspect. In that event, it is unnecessary to obtain a waiver or execute Form FD-404. (See 6-2.4.)

(2) Same Offense - A suspect has the right to a lawyer for any lineup in connection with the offense for which he has been arrested or charged. If he cannot afford one, he has the right to have one appointed. No lineup shall be held under this section if the

suspect is not represented by counsel or refuses to execute a waiver of counsel pursuant to Section 6-2.5.

EFFECTIVE: 10/28/78

6-2.5 Waiver of Counsel (See 6-2.4.2 (2).)

(1) Lineups After Arrest or Charges - If the defendant has no counsel at the time of the lineup, or his counsel has not appeared, the defendant should be asked if he is willing to appear in the lineup without the benefit of counsel. If he is willing, he should be requested to waive counsel by signing Form FD-404.

(2) Execution of Form FD-404 - All blanks on Form FD-404 should be completed to show the place of the lineup (city, state), date, and time the form was furnished to the suspect. The form should be signed by the suspect and two witnesses (preferably Special Agents) and the time noted.

(3) Refusal to Sign Form - If the suspect is willing to appear without counsel but will not sign the form, his words should be written in the blank space below the "waiver and consent" paragraph on the form. Witnesses should then sign the form, and the lineup held.

(4) Voluntariness of Waiver - To be valid, the waiver must be voluntary. Agents should not do or say anything which would make the waiver anything other than the product of the suspect's free choice.

EFFECTIVE: 04/28/78

6-2.6 Substitute Counsel

If the suspect is entitled to a lawyer but is not represented by counsel and refuses to waive counsel, the U.S. Attorney should be asked to request the court to appoint counsel for lineup purposes. The lineup should not be conducted if the suspect is not represented by counsel and refuses to execute the waiver.

6-2.7 Role of Defense Counsel

The proper function of a defense attorney at a lineup is merely that of an observer. His presence is required to assure intelligent cross-examination of the lineup witnesses later at trial, and to detect anything that might affect the admissibility of testimony about the lineup.

(1) Lawyer's Suggestions - The defense lawyer should be permitted to make suggestions concerning the procedure of the proposed lineup. The Agent should attempt to incorporate any reasonable suggestion which promotes the fairness of the lineup. All suggestions, whether or not adopted, should be noted by the Agent supervising the lineup and included in his FD-302.

(2) Participation During Lineup - The attorney should be instructed not to converse with the lineup participants or witnesses during the lineup. Any attempts to disrupt the lineup should be noted by the Agent on his FD-302. If the attorney for the defendant obstructs the identification, he may be excluded from the lineup room. In the event a defense attorney is excluded, the U.S. Attorney should be contacted before resuming the lineup.

(3) Presence at Moment of Identification - If practicable, the witness should make the identification attempt in the lineup room when the suspects are still visible. Defense counsel should be present and immediately informed if an identification is made. He should not be allowed to communicate with the witness at this time, nor participate in the identification process.

(4) Presence at Postlineup Interview of Witness - The right to counsel does not extend to interviews with lineup witnesses after the conclusion of the lineup. The suspect's lawyer thus should be excluded from the postlineup interviews of lineup witnesses.

(5) Contact with Government Witnesses After Completion of Lineup - The lineup witness may be told that he may speak with the defense attorney if he wishes, but that he is under no legal obligation to do so. The witness' name and address should not be revealed to the defense lawyer without the consent of the witness.

6-2.8 Suggested Lineup Procedure

All FBI lineups should comply with the procedures discussed below. The primary objectives of these procedures are to eliminate suggestiveness and make certain that nothing is done or said by the Agents to distinguish the suspect from other participants in the lineup. This will assure accurate and reliable identifications.

(1) Number of Participants - At least six (6) persons, including the suspect, should be included.

(2) Physical Similarity - All participants should be of the same race and sex and be similar in physical description.

(3) Persons Known to Witnesses - Persons known to the witnesses should not be used as elimination participants in the lineup.

(4) Position of Suspect - The suspect should not be positioned as to suggest identity. Prior to viewing by witnesses, the suspect should be allowed to change his position if either he or his attorney requests a change.

(5) Conduct of Agents - Agents participating in or observing a lineup should not do or say anything to call the witness' attention to the suspect. Agents should not comment on the validity of an identification made by a lineup witness.

(6) Distinctive Clothing - The lineup suspect may be compelled to wear distinctive clothing. All other participants must wear similar attire or don the suspect's clothing.

(7) Voice Identification - The suspect may be compelled to speak for voice identification if all participants are required to state the same words or phrases. None of the lineup participants, including the suspect, should be required to identify himself individually when being viewed by the witnesses.

(8) Compelled Action - The suspect can be compelled to make certain gestures or assume particular poses. All other lineup participants should be required to do likewise.

(9) Multiple Witnesses - Multiple witnesses should view the lineup separately. If this is not feasible, care should be taken to segregate the witnesses during the lineup so that they are unaware of the reactions of the other witnesses.

(10) Identifications - The witness should be asked to make an identification during the lineup, when the lineup participants are within view of the witness. Multiple witnesses should make identifications out of the presence of other witnesses. In the event of a positive identification, the witness should be asked to execute a signed statement setting forth the reasons which persuaded him to make the identification.

(11) Photograph of Lineup - Frontal and profile photographs of the lineup participants should be taken and preserved in the case file for possible use as evidence in the event the fairness of the lineup is challenged.

(12) Record of Lineup - The Agent in charge of the lineup is to prepare a complete memorandum (FD-302) on how and where the lineup was held. The memorandum should include the names and addresses, jail or otherwise, of all lineup participants. Any suggestions or objections made by the defense attorney should be noted in the FD-302. Other Agents assisting in the lineup shall prepare FD-302's describing their roles in the lineup.

EFFECTIVE: 04/28/78

#### 6-2.9 Lineups Conducted by Local Authorities

It is recognized that in some instances local facilities and personnel might have to be used to conduct a lineup. In that event, efforts should be taken to assure that the procedures used by the local authorities substantially conform to the procedures outlined above.

6-2.10 Refusal to Participate

An in-custody suspect has no right to refuse to participate in a lineup. If a suspect refuses to participate or refuses to perform required acts in the lineup (utter certain words, perform certain acts), he should be informed that he has no right to refuse. The defendant may be informed that evidence of his refusal might be used against him at his trial. If the suspect continues to refuse, consideration should be given to obtaining a court order to compel participation, or employing photographic identification procedures.

EFFECTIVE: 04/28/78

6-2.11 Detention of Suspects for Lineups (See 6-2.4.1.)

When probable cause for arrest is not present, or when an arrest is not desirable, two possibilities are available to compel the suspect to appear in a lineup:

(1) Court Order - Upon approval of the U.S. Attorney, an affidavit may be filed with the U.S. Magistrate or U.S. District judge seeking an order compelling the suspect to appear at a designated place and time for a lineup. The affidavit should contain facts establishing grounds to believe that a Federal offense has been committed, that there is reason to suspect that the person named or described in the affidavit committed the offense, and the results of the lineup will be of material aid in determining whether the person named in the affidavit committed the offense.

(2) Grand Jury Subpoena - The U.S. Attorney may be requested to ask the Federal grand jury for a subpoena directing the suspect to appear in a lineup at a designated time and place.

6-3.1 When Permissible (See 4-2.7 (1).)

If a suspect is arrested or placed in temporary detention shortly after the commission of an offense, in the general area of the offense, suspect may be confronted singly by witnesses for identification purposes. The phrase "shortly after the commission of an offense," as used in this section, is to be considered two hours unless special circumstances of an individual case warrant an extension, or local practice or court rules require a reduction. In arrest situations, preference should be given to foregoing the single suspect confrontation in favor of a formal lineup. However, if staging a lineup will cause a substantial delay in the identification attempt and thus reduce the reliability of the identification, or is impracticable under the circumstances, the Agents should proceed with the single suspect confrontation.

EFFECTIVE: 05/30/91

6-3.2 Confrontation Procedure

Because single suspect confrontations are inherently suggestive, Agents should take all reasonable steps to assure that confrontations between suspects and eyewitnesses are accomplished as fairly as possible, with a minimum of suggestiveness. Some procedures which may reduce suggestiveness are outlined below. It is recognized that the circumstances surrounding single suspect confrontations will vary. Therefore these procedures are not mandatory, but are offered merely for guidance.

(1) Circumstances of Viewing - Agents may be able to arrange the circumstances of the viewing to reduce suggestiveness. For example, the suspect may be positioned with several Agents, or exchange articles of clothing with the Agents or others.

(2) Informing Witness of Status of Investigation - Agents should avoid telling witnesses about the status of the investigation or the details of the apprehension of the suspect. For example, Agents should not inform the witness of the fact that the suspect was stopped in a stolen car, or that he/she possessed a weapon or fruits of the crime, or that he/she admitted his/her participation in the offense. The witness merely should be informed that a person who fits the description of the suspect has been detained for investigation.

(3) Questioning Witnesses - Agents should phrase

Body

questions of witnesses so as to avoid suggesting that the person stopped has been arrested or is the perpetrator of the crime. For example, "Is this the person?" is preferable to "This is the person, isn't it?"

(4) Commenting on Validity of Identification - Agents should not comment on the validity of an identification made by a witness during a single suspect confrontation.

EFFECTIVE: 05/30/91

#### 6-3.3 Place of Confrontation

(1) After Arrest - If a suspect found in the general vicinity of a crime shortly after its commission is arrested, the confrontation may take place either at the place of arrest, the scene of the crime, or any other appropriate place. The consent of the suspect shall not be required to remove him/her from the arrest site to another location for viewing.

(2) During Temporary Detention - If a person found in the general vicinity of a crime shortly after its commission is placed in temporary detention, the confrontation should take place at the location of the stop. This will require transporting the witnesses to the scene of the detention. Unless special circumstances exist, or the suspect voluntarily consents, the suspect should not be transported to the scene of the crime or to another location for viewing.

EFFECTIVE: 05/30/91

#### 6-3.4 Multiple Witnesses

If there are several witnesses to the crime, consideration should be given to having only one or two confront the suspect. If the suspect is taken into custody, a lineup may be arranged for the witnesses who did not view the suspect in the confrontation.

6-3.5 Right to Counsel

A suspect who appears in a single suspect confrontation has no right to be represented by counsel at the confrontation. It is unnecessary for any suspect to execute Form FD-404, Your Rights at a Lineup, prior to appearance in the confrontation.

EFFECTIVE: 05/30/91

6-4 PHOTOGRAPHIC IDENTIFICATION (See MIOG, Part I, 91-8 (8).)

EFFECTIVE: 05/30/91

6-4.1 When Conducted

(1) Prior to Arrest - Photographic identification techniques are permissible prior to arrest, when the perpetrator of the crime is not in custody, and his/her identity is unknown or he/she cannot be located.

(2) After Arrest - Photographic displays should not be shown to a witness if the suspect is in custody and a lineup is reasonably practicable.

EFFECTIVE: 05/30/91

6-4.2 Suggested Photographic Identification Procedures (See MIOG, Part II, 7-8.)

The display of photographs should not be impermissibly suggestive. Therefore, except where wholly impracticable, the following procedures should be utilized:

(1) Number of Photographs - The suspect's photo should be in a group of at least five other photos. Investigators may wish to utilize Form FD-747, Photo Spread Folder, to display the photographs.

(2) Similarity of Photographs - There should be a reasonable attempt to use photographs of other persons who resemble

the suspect. The photo print itself should not be dissimilar to other prints.

(3) Multiple Displays - Photographic displays should not be repeatedly shown to witnesses who have made identifications unless in furtherance of a legitimate investigative purpose.

(4) Comments by Agents - Agents should not indicate in any manner which photograph is of the suspect. Agents should not comment on the status of the investigation or on the validity of an identification.

(5) Multiple Witnesses - No witness should view the photographs in circumstances which permit other witnesses to ascertain his/her ability or inability to identify the suspect.

(6) Indications of Criminality - Agents should attempt to locate and utilize photographs which do not show indications of criminal misconduct by the individuals depicted in the photographs, and where feasible, use photographs without number boards or other indications of criminality. If mug shots are the only photographs available, it is preferable that the number boards be covered or masked over.

EFFECTIVE: 10/22/93

#### 6-4.3 Retention of Photographs

All photographs shown to any witnesses for the purpose of identifying the suspect, whether or not an identification was made, should be specifically identified and remain under the control of the field office or be otherwise recoverable, so that they will be producible, if necessary.

6-4.4 Written Record of Photographic Identification

A written record of photographic displays, for the purpose of identifying a suspect, should be made and maintained in the case file. Except where wholly impracticable, the record should include the following:

(1) Record of Photographs - A record should be maintained of all photographs shown to any witnesses for the purpose of identifying a suspect. The record should be maintained whether or not an identification was made.

(2) Identity of Persons Depicted - Identifying information on persons represented in each photograph should be maintained.

(3) Marks or Scratches - The purpose or absence of any marks, scratches, folds, writings, or other notable physical characteristics on the photographs should be recorded.

(4) Date, Time, and Location of Display - The date, time, and location of each photographic display should be recorded.

(5) Identity of Witness - The name and address of the witness to whom the photographs were displayed should be noted.

(6) Identity of Agent - The name of the Agents who observed or participated in the photo display should be recorded.

(7) Statements by Agents - Any statement made by an Agent to the witness in connection with the photographic display, and pertaining to the identification, should be noted.

(8) Details of Identification - If the witness makes a positive identification, he/she should be asked to furnish a signed statement furnishing the details of the identification.

6-4.6 Displaying Bank Robbery Surveillance Photographs

(1) Witnesses of Depicted Robbery - Bank Robbery surveillance photographs may be shown singly to, or left with witnesses of, the depicted robbery. Inasmuch as this practice is not suggestive and does not give rise to a likelihood of misidentification, Section 6-4.2 is inapplicable.

(2) Witnesses of Separate Robbery - If robbery surveillance photos are shown to witnesses of a robbery other than the robbery depicted in the photograph, and an identification is being sought, the guidelines set out in Sections 6-4.1, 6-4.2, 6-4.3, and 6-4.4 should be observed. With regard to Section 6-4.2(1), the other photographs in the spread should be surveillance photos taken during other, unrelated robberies.

6-4.7 Release of Photographs to the News Media

| (1) FBI personnel should take no action to encourage or assist the news media in photographing or televising a defendant or accused person being held or transported in Federal custody.

| (2) Employees of the FBI should not make available to the media photographs of a defendant unless a law enforcement function is served thereby. The release of a bank camera photo or a photograph of a defendant who is a fugitive from the justice is considered a proper law enforcement function and is permitted under this section.

6-4.8      Photographing Juveniles (See 3-16.2 (6) and MIOG, Part II,  
Section 4-2.2.3.)

The Juvenile Delinquency Act states that no juvenile who has been arrested shall be photographed unless it is determined [he/she] will be tried as an adult, or the U.S. District judge consents to the photo being taken. This prohibition is applicable to FBI Agents, the U.S. Marshal's office, and any local facility in which a juvenile is incarcerated on Federal charges.

RECORD OF INFORMATION FURNISHED OTHER AGENCIES  
CHANGES IN THE USE OF FORM FD-159

This is to advise all Field Office Divisions that the use of form FD-159 to reflect "oral" dissemination from FBI files is optional and no longer a mandatory requirement.

The use of form FD-159 is optional, assuming a complete, accurate, handwritten notation satisfying the requirement of the Privacy Act, is made on the file copy of the substantive file. The use of a control file to centrally store copies of form FD-159 is also optional. If form FD-159 is used, it must show as accurately as possible the source and nature of information which has been disseminated orally. When possible, indicate on the FD-159 the file, serial, page and paragraph number from which information was disseminated.

Manual changes will follow.
